ACT/045/015

Mr. Arlon G. Jacobs  
Rush Valley Enterprises, Inc.  
7107 South 400 West, Suite 10  
Midvale, Utah 84047

Dear Mr. Jacobs,

Recently a compliance examination was conducted at your mining operation in T. 8S., R. 4W., Section 5 in Tooele County, Utah. This area has not been reclaimed to the standards specified in the 43 CFR 3809.1-3 regulations. We require immediate action concerning reclamation of this site.

Specific measures required for reclamation of the site are removal of the concrete pads and iron pipes, refilling and recontouring of the pit, reapplying topsoil and reseeding of the site this year.

It is also required that your Five Mile Pass mine site be reseeded this year. The piles of material must be removed or regraded. Specific directions for reseeding were given in a letter dated October 16, 1985. This information will be provided upon request.

Please advise me of your plans to reclaim these sites. We will be glad to meet you and your contractor on-site to ensure reclamation is completed to standard. Feel free to contact me at (801) 524-5348.

Sincerely yours,

HOWARD HEDRICK
